Dated 20 July 1899.

From,

The President of the

To,

The Secretary to the
Government of Mysore
Revenue & Genl Departments.

Sir,

I have the honour to state that the municipal Board of Nunsur consider the present water supply of the town to be partial and insufficient and proposed to supply water to the people living in the eastern portion of the town on a higher level. The cost of water supply, by pumping, for the upper portion of the town will be about Rs 3/4/0. and the working expenses will amount to Rs 2/8/0

Its an error. 1000/-

nearly Rs 2000/- per annum, as intimat-ed by the Superintending Engineer, Sanitary works, in his docket no 2128/893 dated 19th August 1898. The Board are of opinion that they are able to pay the money of the cost of Rs 8710/- by annual instalments with 4 per cent. interest along with the loan that remains yet unpaid, and also to meet the working expenses. A copy of their resolution dated 11th February 1899 is herewith submitted. The Superintending Engineer, Sanitary works, in his docket No. 2389/796 dated 9th June 1899, states that if the Proceedings of the Municipality

regarding the same is approved of by Government, the scheme for the work will be submitted for sanction. Since the present water supply benifits only a minor portion of the people residing in the lower part of the town, it is desireable to extend the supply of water to the majority in the eastern part of the town, who are very anxious to have it. I request therefore that you will be good enough to place the matter before Government and obtain their sanction for the same at an early date.

I have the honour to be.

Your most obedient servant

7/186-94 dated the 23rd September 1899,
Calling for a report pointing out the
source from which the cost of supplying
water to the higher portion of the town
of Nanjanagud by pumping from the
water works and the annual work-
-ing expense of the same can be met,
I have the honour to state that the
Municipal Board of Nanjanagud have

we resolved in their meeting dated
